# Chairman's Message (Raipur Branch CIRC of ICAI)

Dear students,

The last month has been a great beginning with the new committee. The positive response from each end has given me high enthusiasm to work harder towards making each day better.

The result declaration is near and all the students must be into dilemma about what is going to happen. Stressing more on negative points is human psychology but we should have control over it. We always prepare ourselves for the good but no one is ready to face the negative consequences. We talk about celebrations on achieving success but what if the dice goes against us? At this point of time, it's necessary for everyone to have a positive mindset and stay calm. Having faith on yourselves is all what you need. Even if things doesn't go as per our plan, we should try to accept it and move ahead with a proper procedure and strategy. We are here for making ourselves better and better by each passing day. Remember, giving up has never been the solution but fighting with your problems has always brought out winners. Imagine if the scientists would have stopped experimenting on their first failure, these great theories would have never emerged.

Even if you fall 100 times, try to stand up 101th time with the same level of energy. It's not easy to buck up but it's also not impossible.

I wish you all good luck and I am sure you all will be out with flying colours.

With warm regards,  
CA Kishore Baradia  
Chairman

# Chairman's Message (CICASA)

Dear students,

"सपने वो नहीं होते जो नींद में सोते हुए देखते हैं, वरन् सपने तो वो होते हैं जिसे देखने के बाद हमें नींद ही ना आए।" These words by Dr. APJ Abdul Kalam constantly reminds me the importance of dreaming. To dream is to unlock the first step. It's the key to open the door with results in our favour.

Working with you all has proved to be an adventure in the past one month. I have already received great ideas to present in the coming year. This year, I am ready with 11 committees in CICASA to work with and bring out more effective outcomes. For the month of February, we are coming up with the youthfest "Rhapsody". It's going to be an event full of amusement filled with games, music and much more. But before that we are going to have the results out. The day of result is never easy for anyone which is natural. The anxiety hits us hard and the mind runs here and there. Staying positive at this hour is crucial. Hoping for the best is the key to open your stuck mind.

We all should be prepared for both the negative and positive ends. Not everyoneone gets everything at one go, therefore, the option of giving up should not be there in your list but working harder should become your prioritiy. Coming up with a better plan of action should be your aim. Remember, failing to plan is a plan to fail, so always keep in mind to have a proper schedule. We all are warriors and warriors never look back.

All the very best!

With warm regards,  
CA Amitabh Dubey  
CICASA Chairman

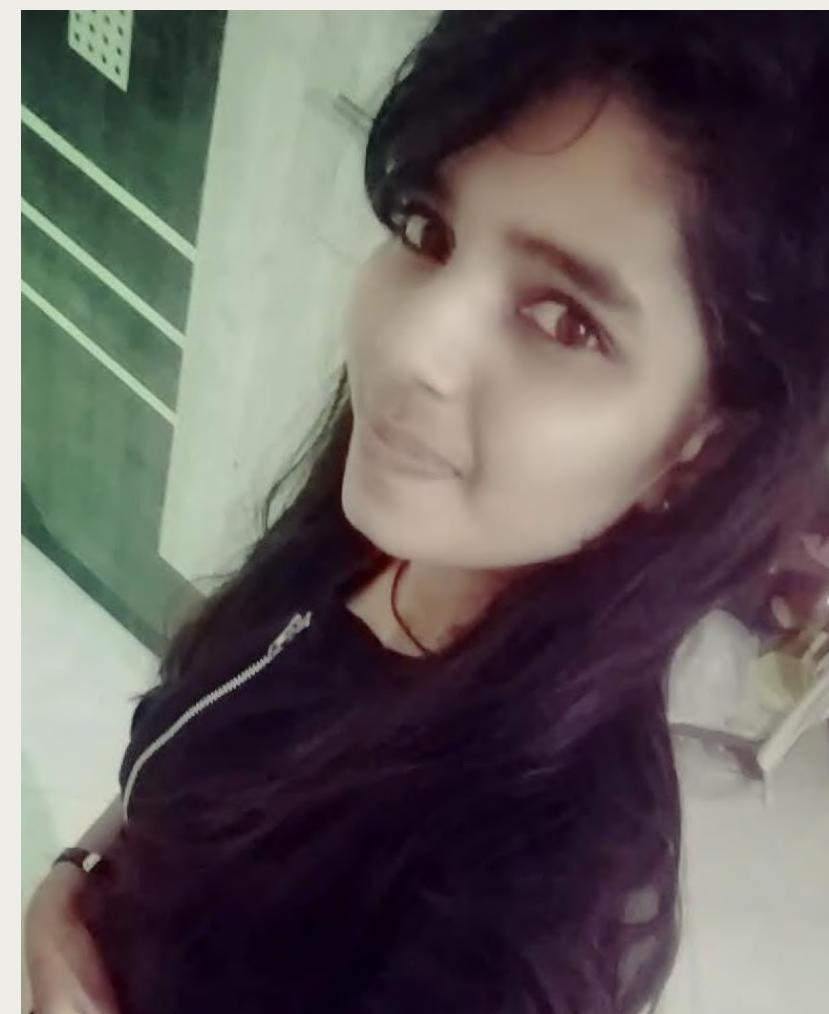

# Editorial Board

Hello Folks!

We are back with another edition of our newsletter. This month we are bringing to you all discussions on Result Fear and anxiety of the same. It will also update you about the happenings of the past month and events we are going to conduct in the coming month. Building connections and keeping you all associated is our duty. We hope you all have a happy reading!

# Know your Committee

## Press and media Committee

Press and media will always be used as an utilitarian phenomena to catch up with all the happenings around us. With this, CICASA will always give its best shot to stay connected with everyone. It will help majorly in communicating with people and also in growth of CICASA Raipur.

**Chm.: Devshankar**

## Social media Committee

In this dynamic world, technologies are emerging everyday. Social media has made communications easier. We can address people with a single click. It's the easiest way to deliver our ideas and keep everyone updated. We, the CICASA Raipur team will always try our best to keep you all connected through social media.

**Chm.: Devesh Mittal VC: Sakshi Jain**

## Editorial Committee

Editorial board has always been responsible for delivering ideas on behalf of the whole association. The contents they put up and the editions they bring out not only update people but also keep them engaged. We, the editorial board will always make sure that you all stay aware with all the happenings.

**Chm.: Kavya Agrawal      VC: Varsha Singh & Ankush Daga**

## Sports Committee

Being stucked with studies and office makes our body rigid, relaxing it is really important. We at CICASA will try our best to carry out various sports related events to provide you all with something that can bring you out of the hectic schedules and rejuvenate your mind and body. We will make sure to have major participation in such events.

**Chm.: Pankaj Agrawal      VC: Shashank Gupta**

## MOC and protocol Committee

Any event can't get success until and unless it's governed by a proper process and has good protocols. MOC is responsible for communicating with the audience and without it there's no start to any event. We at CICASA always give our best to have a strong team for the same.

**Chm.:Arya Gupta V.C.:Sona Dawda**

## Public Relation

For creating awareness related to any activity, promotion of management's work is the key. It will help developing Public Relations and increasing the working network. CICASA never steps back in creating links and always stay a step ahead in doing so.

**Chm.:Simran Jha**

**V.C.: Dimple Poptani**

## Event coordination committee

Coordination is the key to success of any huge event. Anyone who can manage large public and definitely make the event work out. From starting to end, event coordination plays in a major role, be it bookings, arrangements, invitation and all the other requirements. CICASA always makes sure to have great communication so that every planning comes out well.

**Chm.:Shubham Mehta V.C.: Ishika Jain & Sejal Agrawal**

To attract and take care of the complexities in presentations, designing committee always stay ahead. It communicates everything in a short way through banners, posters, etc. We believe at CICASA that without their work, no outcome is complete.

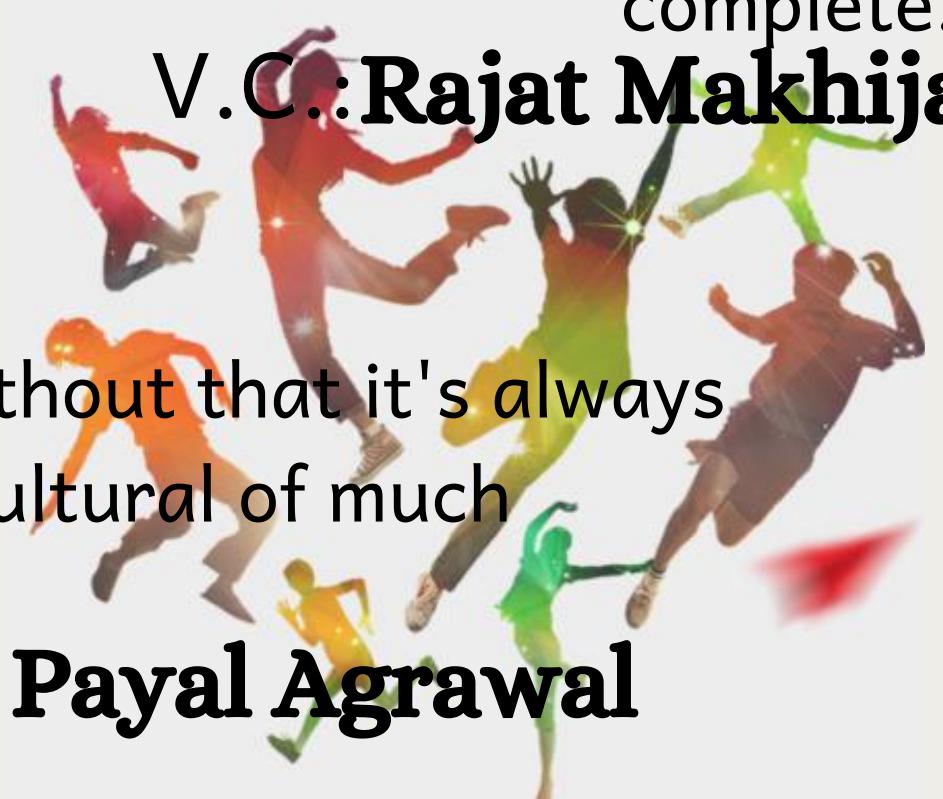

**Chm.:Pratibha Das**

**V.C.:Rajat Makhija**

## Cultural Committee

Cultural activities play a major role in any event and without that it's always vague to move ahead. CICASA has always considered cultural of much importance and the same trend remains for the future.

**Chm.:Ruchika Sahu V.C.: Ritika Agrawal & Payal Agrawal**

## Student representative Committee

Representing such a large number of students is not easy but it's not impossible too. Working for the association gives us pleasure and CICASA always try to move ahead taking all the students with it.

Chm.: **Ayush Kesharwani** V.C.:**Tanu Agrawal**

## Extended Committee

Prioritising is a way to build a core area for moving forward. Serving all the students in a well versed way is the our prime duty. Being a part of CICASA we look forward to grab many more opportunities and take initiatives to work better and better.

Chm.: **Shubham Bansal** V.C.: **Ankit Agrawal**

# Result Anxiety

As soon as the date for result declaration comes out, "anxiety" takes birth right from that moment. "Stress" is the twin of "Anxiety".

In this article, it's just an attempt to aware you all that life is all about exams and then waiting for the result of the attempt undertaken. Be it start of a business, a job interview or any academic exam, the anticipation of the results is always verve cracking. CA exams and results outdo all other terrors of the world. When it comes to a student, waiting for the results is the toughest to face and conquer.

CA is considered to be one of the most challenging examination all over the country mainly because of its low passing rate. Inspite of it, one has to face everything and how a person tackles the result shows the strength he possess.

One should always remember that RESULTS ARE NOT THE END OF THE WORLD. If one gets a negative result, then it's completely natural to feel dull about the same but still it should not stop the person from reaching his destiny.

A person should always discuss his feelings that goes in his mind so that the tension does not build home in his mind and implate it. Parents, siblings and friends can help one handle the result pressure.

It is advisable not to compare things with anyone as it leads to self doubt which in turn leads to demotivation and lack of concentration. One should always focus on the positive side and have faith in his abilities.

In the end, I would like to say that RESULT ANXIETY is common in everyone but what really matters is how a person fights with it as a warrior and comes out as a winner.

## **#RHAPSODY**

*"In the month of February, CICASA Raipur is going to organise a one day Youthfest titled as "RHAPSODY" for all the CA students. It's going to be an adventurous weekend full of fun, food, games, dance, music and much more. We look forward for an enthusiastic participation from each end.*

*Fasten your seatbelts and get ready for an intrepid ride at the end of the month."*

Fear is False Emotions Appearing Real. It's an illusion, the more you trust it, the more it becomes the part of your reality. It restricts a person's mind to move ahead. The fear of one particular thing becomes a hurdle at every other step. Fear of failing in any exam, whether academic or non-academic is natural and feeling it is completely rational.

Everything you want is on the other side of the fear. As soon as you find the ways to fight with it, you start making a way to win over it. Once you know how to overcome your fear, there's nothing that can hold you back. Whenever you take a step back, you will find this fear ruling you all around your way. Don't let it happen. Don't let the fear win. Work around it , Work with it and all that you urge is yours.
